Call for Events

The FedCSIS multi-conference consists of a significant number of antecedent Events, but the Call for Events is open in all areas of computer science and information systems and new proposals for associated Events (conferences, symposia, workshops, special sessions, etc.) are cordially invited until January, 14, 2013.

The proposals should be prepared according to requirements specified in the Call for Events on the conference website www.fedcsis.org and emailed in a single pdf file to secretariat@fedcsis.org

The Events will be selected based on the scientific/technical interest and/or their relevance to practitioners in their topics, the clarity of the proposal in addressing the requested information, the innovativeness of the Event topics, and the capacity in the FedCSIS conference program.

Call for Papers

The FedCSIS Events provide a platform for bringing together researchers and practitioners to present and discuss ideas, challenges, and new solutions in computer science and information systems. Topics of interest are defined by Events constituting FedCSIS and listed on www.fedcsis.org

The papers should be submitted to a chosen Event by May, 12, 2013 using the FedCSIS submission system:

<http://fedcsis.eucip.pl/openconf.php>

Accepted and presented papers will be published in the IEEE Xplore Digital Library proceedings entitled "2013 Federated Conference on Computer Science and Information Systems (FedCSIS)". Because the IEEE proceedings will be published under nonexclusive copyright, the Events' organizers will endeavor to arrange quality journals, edited volumes, etc. and will invite extended and revised papers for post-conference publications.
