

International Conference on Innovative Network Systems and Applications (iNetSApp)

September 7-10, 2014
Poland, Warszawa

International Conference on Innovative Network Systems and Applications (iNetSApp)

organised as a part of
FEDERATED CONFERENCE ON COMPUTER SCIENCE AND INFORMATION SYSTEMS (FedCSIS)

Composed of the following events:

- ☐ EAIS'14 - 1st Workshop on Emerging Aspects in Information Security
- ☐ SoFAST-WS'14 - 3rd International Symposium on Frontiers in Network Applications, Network Systems and Web Services
- ☐ SDN'14 - 1st Workshop on Software Defined Networking
- ☐ TAMOCO'14- 3rd Workshop on Techniques and Applications for Mobile Commerce
- ☐ WSN'14 - 3rd International Conference on Wireless Sensor Networks

Call for papers

Topics

Topics include (but are not limited to):

- ☐ Architecture, scalability and security of Open API solutions,
- ☐ Technical and social aspects of Open API and open data,
- ☐ Web services – standards and applications,
- ☐ Service delivery platforms - architecture and applications,
- ☐ Telecommunication operators API exposition in Telco 2.0 model,
- ☐ The applications of intelligent techniques in network systems,
- ☐ Mobile applications,
- ☐ Network-based computing systems,
- ☐ Computer forensic and network security,
- ☐ Traffic classification algorithms and techniques,
- ☐ Network traffic engineering,
- ☐ Wireless communications,
- ☐ Control of networks
- ☐ Sensor Circuits and Sensor Devices
- ☐ Architectures, Protocols and Algorithms of Sensor Network
- ☐ Management, Energy and Control of Sensor Network
- ☐ Data Allocation and Information Processing in Sensor Networks
- ☐ Resource Allocation, Services, QoS and Fault Tolerance in Sensor Networks
- ☐ Security and Monitoring of Sensor Networks
- ☐ Software, Applications and Programming of Sensor Network
- ☐ Performance, Simulation and Modeling of Sensor Network
- ☐ Applications of Wireless Sensor Networks
- ☐ Authentication methods and systems based on knowledge, physiological and behavioral human characteristics
- ☐ Data exploration in biometric authentication systems
- ☐ Networked authentications systems
- ☐ Multifactor authentication systems
- ☐ Authentication in operating systems, databases, internet applications
- ☐ Security and usability of authentication systems
- ☐ Social, legal and economic aspects of strong authentication systems
- ☐ Authentication and e-documents
- ☐ Applications of authentication methods and systems

Important Dates

- ☐ Paper submission: **April 11, 2014**
- ☐ Position paper submission: **May 11, 2014**
- ☐ Acceptance decision: **May 18, 2014**
- ☐ Submission of final paper versions: **June 16, 2014**

Full regular papers will be published in IEEE Digital Library.

details: <http://www.fedcsis.org/inetsapp>

Organizers:

Research and Development
Centre
Orange Labs Polska

Department of Technical Cybernetics,
Faculty of Management Science and
Informatics, University of Žilina, Slovakia

Faculty of Cybernetics
of Military University of Technology

Faculty of Mathematics
and Information Science
of the Warsaw University
of Technology

جامعة زايد
ZAYED UNIVERSITY
Zayed University, United
Arab Emirates
